MACO and GIZMOTCHY Antennas USA

	MACO V5/8A	€ 129,00
	Maco Antennas V5/8A	
	Antenna CB Base, 26 - 33 MHz, 5/8 Wave, Maximum Power 1200 Watts. Radial Kit is included with this antenna.	
	MACO V5000A	€ 195,00
	Maco Antennas V5000A	
	Antenna CB Base, 26 - 33 MHz, 5/8 Wave, Maximum Power 5000 Watts. Radial Kit is included with this antenna.	
	MACO GPRK	€ 77,00
	Maco Antennas GPRK	
	Ground Plane Radial Kit, The BOOMER adds 3 db Gain. THE FIX FOR FIBERGLASS BASE ANTENNAS. The Boomer is an aluminum Ground Plane Radial Kit for the Solarcon (I)MAX2000, ATRON / SOLARCON A99, Shakespeare Big Stick, and other fiberglass base antennas. It makes them perform like an all metal base antenna. Weight 2,7 Kg (6 lbs), Element Length 213 cm (7 ft).	
	GIZM G21	€ 252,00
	GIZMOTCHY ANTENNAS G21	

2 Element Gizmotchy w/1500 Watt Gammas, 10/11 Meter,
Gain 9dB, 6 Elements, Boom Length 160 cm.

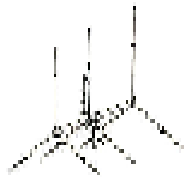

GIZM G31

€ 324,00

**GIZMOTCHY ANTENNAS
G31**

3 Element Gizmotchy w/1500 Watt Gammas, 10/11 Meter,
Gain 12dB, 9 Elements, Boom Length 274 cm.

GIZM G35

€ 350,00

**GIZMOTCHY ANTENNAS
G35**

3 Element Gizmotchy w/5000 Watt Gammas, 10/11 Meter,
Gain 12dB, 9 Elements, Boom Length 274 cm.

GIZM GPB11

€ 105,00

**GIZMOTCHY ANTENNAS
GPB-11**

Addition of Gizmotchy Power Boosters to your Gizmotchy 10/11 Meter antenna adds another set of director elements plus a 114 cm (3.75) extension boom. Doing so adds dB Gain, Power Multiplication, and Front-to-back Separation. One more Power Booster can be added to your existing beam. Each Power Booster weighs approximately 1,8 Kg (4 lbs).

GIZM SK12

€ 117,00

**GIZMOTCHY ANTENNAS
SK12**

366 cm (12 feet) Universal Antenna Support Kit

MACO M103C

€ 204,00

**Maco Antennas
M103C**

Antenna 10/11 Meter Base, 3-Element, Gain 11 dB, Maximum Beam Stack with VQSK for an extra 3 dB gain.

MACO M103CHV

€ 336,00

**Maco Antennas
M103C-HV**

Antenna 10/11 Meter Base, 6-Elements Dual Maximum Beam, Gain 11 dB, 2 Beams on 1 Boom, Vertical/Horizontal, One part may be tuned for 10 Meter Band and the other for 11 Meter Band.

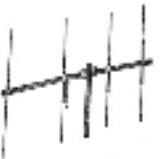

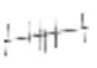

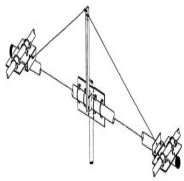

MACO STACK3S

€ 545,00

**Maco Antennas
Stack 3S**

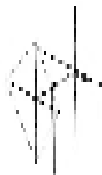

2 Pcs M103C Maximum Beams & Stacking Kit.

	MACO M104C	€ 311,00
	Maco Antennas M104C Antenna 10/11 Meter Base, 3-Element Beam, Gain 14 dB.	
	MACO M105C	€ 422,00
	Maco Antennas M105C Antenna 10/11 Meter Base, 5-Element Beam, Gain 15,5 dB,	
	MACO M106C	€ 527,00
	Maco Antennas M106C Antenna 10/11 Meter Base, 6-Element Beam, Gain 17 dB.	
	MACO M107C	€ 653,00
	Maco Antennas M107C Antenna 10/11 Meter Base, 7-Element Beam, Gain 17,5 dB.	
	MACO MBSK	€ 291,00
	Maco Antennas MBSK Maximum Beam Stacking Kit, for MACO M104C, MACO M105C , MACO M016C, MACO M107C . Gives 3 db Gain over single antenna, Boom Length 405 cm (13.3. feet), Weight 10,9 Kg (24 pounds) with Harness	
	MACO VQUAD	€ 206,00
	Maco Antennas V-Quad Antenna 10/11 Meter Base, V-Quad. Performance equal to M103C in a small package for pushup mounting, Stacking Kit available. Directional-Combined Vertical-Horizontal Polarization plus high gain of 11dB (14 dB stacked) makes the V-Quad an ideal inexpensive beam for push-up monting (stacks too.) Instructions also included for 10 meters.	
	MACO VQSK	€ 138,00
	Maco Antennas VQSK Stacking Kit, May be mounted on pushup mast, Gain 14 dB, Boom Length 305 cm (10 feet). Use with: MaCo Models V-QUAD, M103C,	
	MACO 2600V	€ 71,00
	Maco Antennas 2600V	

5000 Watt Teflon Insulated Gamma Match for MACO V-QUAD Beam, uses Standard Hardware.

MACO YQUAD

€ 255,00

Maco Antennas

Y-Quad

Antenna 10/11 Meter Base, Switchable Polarity Y-Quad Beam.

Using a Quad reflector with a Yagi driven element, the Y-Quad combines the advantage of both designs to give the best performing lightweight antenna available, with switchable polarity. The Quad reflector assures low angle of radiation even at low heights for real long distance performance.

**MACO YQSK
KIT**

€ 311,00

**Maco Antennas
YQSK Stack Kit**

Stacking Kit.

Use for: Maco Model YQ-QUAD,

MACO COMET

€ 333,00

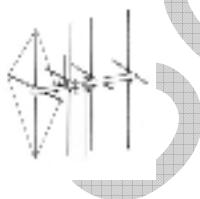

**Maco Antennas
Comet**

Antenna 10/11 Meter Base, A long-distance 6-Element Base Station Antenna with 12.5 dB Gain and Dual Polarity. This antenna is designed for CB'ers who want a booming base station but space is a problem. And, it has the MACO 2 KW Power handling capability.

**MACO
SHOOTING**

€ 464,00

**Maco Antennas
Shooting Star**

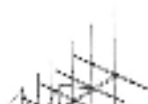

Antenna 10/11 Meter Base, 8-Element Vertical and Horizontal Beam with Screen Reflector.

When performance and price are your main consideration, look at the 8-Element Shooting Star.

Developed to fill the need for top performance, dual polarity operation, the Shooting Star has a gain of 14dB. That's like transmitting with 28 times your normal power! The design uses a Boom of 488 cm (16 Feet) with six scientifically-spaced elements and a quad reflector to obtain the best combination of gain and front-to-back ratio. It's the same design used to bounce signals off the moon! And, it has the MACO 2 KW Power Handling Capability.

MACO LASER400

€ 845,00

**Maco Antennas
Laser 400**

Antenna 10/11 Meter Base, Switchable Polarity 12-Elements
Laser Beam.

The 12-Element Laser is designed to achieve the maximum gain and front-to-back ratio using a Quad Reflector and Yagi parasitic elements.

There are six elements horizontal and six elements vertical, scientifically spaced on a boom of 945 cm.

The 12 Element Laser is second only to the Super Laser 500. It uses the same top quality aircraft aluminum that the larger Laser 500 uses, except that model 500 uses a boom OD of 7,6 cm (3 inches)

	MACO FLAT6	€ 621,00
	Maco Antennas Flat 6	
	Antenna 10/11 Meter, Beam Antenna, Flat Side Only 6 Elements with Multiscreen Reflector, plus a 5 KW Gamma Match.	
	MACO 2600	€ 66,00
	Maco Antennas 2600	
	5000 Watt Teflon Insulated Gamma Match, available for all MaCo Antennas, uses Standard Hardware. (V-Quad is special order)	
	MACO 4600	€ 96,00
	Maco Antennas 4600	
	10.000 Watt Teflon Insulated Gamma Match, available for all MaCo Antennas (except V-Quad), includes Mounting Hardware.	
	MACO 6600	€ 213,00
	Maco Antennas 6600	
	30.000 Watt Teflon Insulated Gamma Match, available for all MaCo Antennas (except V-Quad), includes Mounting Hardware.	
	MACO G1PC	€ 32,00
	Maco Antennas G1PC	
	Gamma Hardware for G01P and Maco 2600 (includes S42) with slider.	
	MACO 45-3	€ 37,00
	Maco Antennas Maco 45	
	Coaxial 3 Position Switch Box, uses Space Age Linear Rotary Switch, Power Limit 1.5 KW.	
	MACO 91	€ 42,00

Maco Antennas

Maco 91

Match Box, Antenna Matcher, Tunable, Maximum Power 300
Watts, Get a correct SWR between Radio and Antenna.
